

CRC FINAL REPORT

CS23L - DEVELOPMENT OFFICERS FOR SIRATAC

CSIRO Division of Plant Industry, Cotton Research Unit, Narrabri.

Supervisor: A. B. Hearn.

This project ran from 1985 to 1988.

The aims of the project were:

- * to test various SIRATAC dynamic thresholds on commercial farms.
- * to test SIRATAC with the new varieties Siokra and DP90, and compare with DP61.
