FINAL REPORT - COTTON RESEARCH & DEVELOPMENT CORPORATION

PROJECT CODE: CS39L

PROJECT TITLE: Research Computing - Graphics Equipment

SUPERVISOR: Mr K.D. Brook

FINAL REPORT: The objective of this project was to acquire graphics hardware and software to allow computerised production of high quality graphs, diagrams and maps for reports, publications and conferences. The following items have been purchased:

- IBM PC/XT microcomputer
- Tektronix 4107 emulation software for the PC
- Mirage PC graphics software
- E60 PC graphics software
- Summagraphics digitiser tablet
- Polaroid Palette 35 mm slide camera
- Quintar 10-80 camera controller
- VAX based DISSPLA software by ISSCO

The equipment has been widely used by researchers and succeeded in automating the production of high quality presentation graphics.
