FINAL REPORT - COTTON RESEARCH & DEVELOPMENT CORPORATION

PROJECT CODE: CSP16L

PROJECT TITLE: Enhancement Of Research Computing By The Application Of Apple Macintosh Microcomputers.

SUPERVISOR: Mr K.D. Brook

FINAL REPORT: The objective of this project was to provide enhancements to a partially established network of Apple Macintosh microcomputers and central VAX microcomputers. The proposed hardware and software have been purchased and installed and the enhancements have benefited all cotton research scientists, from both CSIRO and NSW Dept. of Agriculture, based at Narrabri Agriculture Research Station.
