Authorised Body: COLTON

RESEARCH COUNCIL

Project Number: DAQ18L

Project Title: Purchase of climatic data recording equipment for Australian Cotton Cultivar Trial sites.

Field of Research: varietal improvement

Field Code: 4

Organisation: Queensland Department of Primary Industries

Address: GPO Box 46
BRISBANE

Postcode: 4001

Project Supervisor: Dr Peter Lawrence (Plant Breeder)

Telephone: 079 92 1044

Division/Branch: Plant Industry/Agriculture

Address: Research Station
P.O. Box 201
Biloela Q

Postcode: 4715

Administrative Contact: Dr V.E. Mungomery, Assistant Director (Agronomy)

Telephone: (07) 224 4286

Anticipated Commencement Date: July 1985

Anticipated Completion Date: December 1985

Summary:

Report:

Climatic data recording units have been installed at Biloela and Theodore by ourselves and at Boggabilla by the CSIRO cotton breeders. All units are working satisfactorily.

Cotton growers have installed units at St. George and southern Darling Downs in close proximity to our cultivar trial sites. We have access to the data from these units.
